

PORTMACQUARIA NOM. NOV. PRO **MACQUARIA** BLOME, 2002 (NEMATODA: CHROMADORIDAE). *Memoirs of the Queensland Museum* 50(2): 132. 2005:-*Macquaria* Blome, 2002 (free-living marine nematodes) is preoccupied by *Macquaria* Cuvier in Cuvier & Valenciennes, 1830 (Percichthyidae: Pisces) and has to be replaced (ICZN, 1999, Art. 52, 53, 56, 60).

The type locality for this Australian sandy beach nematode genus is Port Macquarie, New South Wales and so the junior homonym is here replaced with *Portmacquaria*.

Portmacquaria nom. nov., syn. *Macquaria* Blome, 2002 nec *Macquaria* Cuvier in Cuvier & Valenciennes, 1830. Type species: *Portmacquaria chimaira* (Blome, 2002) comb. nov. (= *Macquaria chimaira* Blome, 2002). The genus is monotypic.

Acknowledgements

I thank Christian F. Kammerer, University of Chicago, USA, for making me aware of the homonymy.
